Profile Summary

Front-End Developer with 2 years of experience in designing and developing scalable web applications and responsive user interfaces using HTML, CSS, JavaScript (ES6), and React.js. Proficient in integrating RESTful APIs, creating custom dashboards, and optimizing performance with a strong focus on accessibility and cross-browser compatibility. Skilled in leveraging modern tools and frameworks such as Tailwind CSS, Figma, and Git to deliver innovative and user-centric solutions.

Skills

- **Front-End Technologies:** HTML5, CSS3, JavaScript (ES6), React.js, Tailwind CSS, Bootstrap, Next.js
- **Back-End Technologies:** Node.js, MongoDB, RESTful APIs
- **Tools and Platforms:** Figma, Canva, GitHub, React Testing Tools
- **Other Skills:** Responsive Web Design, Website Deployment (Netlify), Communication Skills.

Work Experience

StepStrong Software Pvt Ltd

2022 - Present

Frontend Web Developer

- **Web Application Development:** Developed interactive and responsive user interfaces (UI) using React.js, HTML, CSS, and JavaScript.
- **Component Development:** Created reusable functional components that can be easily integrated into different parts of the application.
- **State Management:** Implemented state management using React's built-in state management or external libraries like Redux to manage application state and data flow.
- **UI/UX Implementation:** Translated UI/UX designs from Figma and Canva (wireframes) into frontend code, ensuring pixel-perfect implementation and consistency across browsers and devices.
- **Frontend Integration:** Integrated frontend components with backend APIs (RESTful) and services to fetch and update data using Fetch method and Axios library.
- **Code Optimization and Performance:** Wrote clean, efficient, and optimized code to ensure fast loading times and a smooth user experience. Utilized code splitting, lazy loading, devTools, and optimized data fetching.
- **Debugging:** Debugged and troubleshooted issues to ensure high-quality code and bug-free application behavior.
- **Collaboration and Communication:** Worked closely with backend developers, UI/UX designers, and project managers to ensure smooth collaboration and project success.
- **Version Control and Collaboration Tools:** Utilized VCS Git and GitHub for code management and collaboration.
- **Continuous Learning and Improvement:** Continuously updated skills and knowledge with the latest frontend development trends, tools, and best practices, staying engaged with the React.js community.

Projects

CloudFlow Automation Platform

- A web dashboard for managing and tracking support tickets in real-time.
- Allows users to view, update, and prioritize tickets with role-based access.
- Integrates with backend systems for real-time updates and data synchronization.
- Provides search and filter options for efficient ticket management.

Resources Management Dashboard

- A dashboard built in React for managing employee data with secure authentication and efficient CRUD operations.
- Provides enhanced data visualization using Chart.js, with state management handled by the Context API.
- Ensures cross-browser compatibility and responsive design for seamless user experience across devices.
- Allows HR managers to easily manage, search, and filter employee records in real-time.

Shiva Cattle Feeds Website

- A business website designed to showcase products and services for Shiva Cattle Feeds.
- Features a fully responsive layout with modern UI/UX design to enhance user experience across devices.
- Includes a contact form, mobile-responsive navigation, and deployed on Netlify for improved online presence.

Education

Savitribai Phule Pune University

2019 - 2022

Bachelor of Computer Science

GPA: 7.7/10

Certifications

- Full Stack Web Development Certification
- ChatGPT for Coders - Great Learning
